

Future Protocol

Part 1: Envisioning Your Future

Looks Like...	Sounds Like...	Feels Like...

Part 2: Looking Back on the Present

How did the present look when you started?

- What was district culture like?
- What issues did you have to work through? What crucial conversations did you have to have?
- What did student achievement look like? What did the work of teachers look like?

Given your starting place, how did you move forward?

- What needed to happen, and how and when did major transformations unfold?
- Who was involved? What resources were essential in this change process?

Key Drivers, Boosts, & Barriers

Vision Statement:

Driver	Boosts	Barriers
